

Josh Rosenkranz

Apple technologist and experience systems designer

AI-assisted, spatial, emotional, and context-aware interaction

joshrosenkranz@mac.com · joshrosenkranz.info · linkedin.com/in/joshrosenkranz

PROFILE

Nearly twenty years inside Apple — a Genius and trainer watching how people adopt, resist, and emotionally relate to new technology. I turn that observation into prototypeable experience systems across visionOS, AI continuity, and web-based agent workflows.

FOCUS

AI interaction · visionOS spatial prototyping · emotional context · accessibility · agentic workflows · multimodal storytelling

APPLE EXPERIENCE

2006–PRESENT

Creative, Genius, Lead Genius (ISE), Product Zone Lead (ISE), In-Store Guest Trainer

- Shaped Vision Pro launch readiness experiments in Product Zone, reshaping demo flow for a new interaction category while supporting multiple guests and iterating from live customer behavior.
- Built repeatable training, coaching, and service patterns across Genius, Creative, Business, and Product Zone contexts.
- Led through ambiguous operational transitions while translating complex technical problems into calm, human-centered guidance.
- 97% NPS · #1 at Lakeside and #99 companywide in Apple's Atlas technical training.

SELECTED FUTURE EXPERIENCE WORK

- **RoomBridge**, early visionOS prototype exploring room anchoring, glass interfaces, spatial panels, and immersive room transformation.
- **MindHub**, early AI continuity prototype with identity persistence, thread memory, context weaving, CLI and web surfaces, retrieval, and governance telemetry.
- **Between**, deployed Next.js and Supabase app foundation for agent-guided commerce workflows and mediated transaction threads.
- **Attune**, mature AI interaction design exploration for Siri personality control, consent-based responses, Gentle iOS modes, companion health, and relational context.

TECHNICAL FOUNDATION

AI-assisted prototyping with Claude Code, Codex, GitHub Copilot, and ChatGPT across web and visionOS.
Next.js · TypeScript · React · Supabase · Vercel · GitHub · iOS · macOS · visionOS · Photoshop · Illustrator

EDUCATION AND TRAINING

LA Recording School, Audio Engineering · Berklee, Music Production and Performance · Apple Creative and Mac Genius Training
